DERICHEBOURG

Atis aéronautique

Quality service in keeping with aeronautical needs

Derichebourg Atis Aéronautique has a strategic position in a market with huge human and commercial stakes, in which know-how and expertise are continually evolving, which demonstrates our outstanding organisation, methods and services.

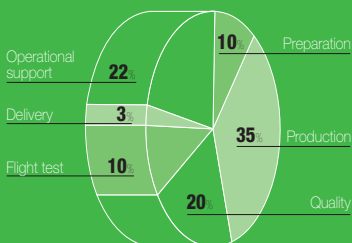

While the quality of our services has been confirmed by many formal approvals and certifications and by the loyalty of the most demanding principals, it depends, above all, on our competent engineers and technicians, but also on our responsive and flexible organisation, which enables us to meet customers' needs, including their technical, operational and regulatory constraints, with tailor-made solutions.

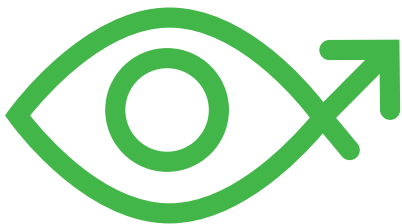

A well-known leading player in the aeronautical outsourcing market

- 10 years of aeronautical expertise
- 15 branches in Europe
- 1 subsidiary in Spain: Atis Ibérica
- 950 engineers and qualified technicians
- Covering 15 professional fields
- Service provider for more than 50 airline companies
- Service provider for the major aeronautical manufacturers

Derichebourg Atis Aéronautique, a division of the Derichebourg group is a major stakeholder in aeronautical sub-contracting in Europe, with universally acknowledged know-how. It has been developing partnerships with the major principals, which has enabled it to enjoy sustained development of its activities in France and abroad with 20% of annual organic growth over the last 5 years.

Derichebourg Atis Aéronautique offers manufacturers, airline maintenance centres and also leasing companies and financial institutions which own aeronautical equipment, a wide range of continually evolving services, covering all stages in the life of aircraft, from design and production through operations and technical assistance for asset management. Due to its efficient organisation and highly qualified engineers and technicians, Derichebourg Atis Aéronautique has been a leading player in its continually changing market, for more than 10 years.

CERTIFICATIONS AND QUALIFICATIONS

- ISO 9001 version 2000
- EN 9100
- PART 145 FR 145.107 including C check
- PART M
- Permanent associate member of the IATP since March 2004

A WIDE RANGE OF SERVICES AVAILABLE

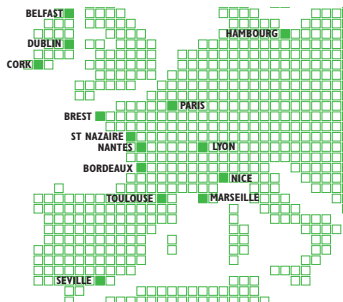

Meeting the needs of its customers, Derichebourg Atis Aéronautique offers a complete range of services based on its professional know-how, which has been acknowledged and confirmed by many formal approvals and certifications. Atis Ibérica, a Spanish subsidiary created in April 2005, is a practical demonstration of the resources available to Derichebourg Atis Aéronautique for efficiently meeting the needs of its customer (EADS CASA).

From industrial preparation of aircraft to delivery

Derichebourg Atis Aéronautique is a major service provider for aeronautical manufacturers at all stages of manufacturing, from industrial preparation, manufacturing and assembly to aircraft delivery, including logistics, quality control and technical assistance for flight tests.

From technical writing of maintenance manuals to technical assistance for asset management

Derichebourg Atis Aéronautique also offers services to more than 50 airline companies, in 12 European airports and to aircraft owners, including the editing of maintenance manuals, monitoring airworthiness, line maintenance and repair, and more generally, meeting all technical and regulatory requirements for aircraft operation throughout their life cycles (support, engineering, expertise, etc.).

LE FOR THE AERONAUTICAL SECTOR

Preparation and industrial support

- Industrial preparation
- Technical support
- Quality inspections and tests
- Customer account coordination

Production

Manufacturing, modification and repair...

- Structure manufacturing
- Systems assembly
- Final assembly of structures, systems and cabin layout
- Flight tests (technical assistance, maintenance, etc.)
- Installing and maintenance of strain gauges for static tests

Special procedures

- Aircraft washing, technical cleaning, removal of temporary paint
- Towing and repositioning

Operational support

- **Line maintenance of aircraft** (Airbus, ATR, Avro, BAE, Boeing, Bombardier, Embraer, Fokker, etc.)
- **Base maintenance** (maintenance scheduled up to C check, modifications and repair of aircraft, storage of aircraft, management of operational financing requirements, stocks and equipment, technical verifications)
- **Aeronautical engineering**
Maintenance and monitoring of airworthiness (maintenance planning, definition of maintenance schedules, management of aircraft airworthiness maintenance, technical support, analyses, etc.)
Asset management (technical assistance for 'recovery of aircraft', analysis and organisation of technical data, physical inspection of aircraft, definition of work-packages, work supervision, delivery of aircraft and aircraft audits, etc.)
- **Logistics**
Logistical support for manufacturers (Support for flight test departments – Coordination of industrial partners – Logistical coordination – Flow management, repair circuit management – Management and replacement of parts)
Logistical support for airline companies (Stock management – Management of KPI – Part traceability – Flow management, repair circuit management – Management of orders – Procurement)

Derichebourg: a major corporate and community services operator

The Derichebourg Group is a major international corporate and community services operator. Present in more than 30 countries on 4 continents, the Derichebourg Group has more than 54,000 associates. It offers a very wide range of services organised in 3 complementary business areas:

The **DERICHEBOURG** Group

- Present in more than 30 countries on 4 continents
 - More than 300 installations
 - More than 54,000 associates
 - €3.7 billion in sales in 2006
 - More than 20,000 clients
 - Listed on Euronext Paris
-

Corporate services

(Derichebourg Multiservices):

Reception and related services, aeronautics, energy, temporary staffing, materials handling, sanitation, safety and security.
